

INTERNET FOR ALL

FUNDED BY THE BIPARTISAN INFRASTRUCTURE LAW

ADMINISTERED BY THE DEPARTMENT OF COMMERCE'S NATIONAL
TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

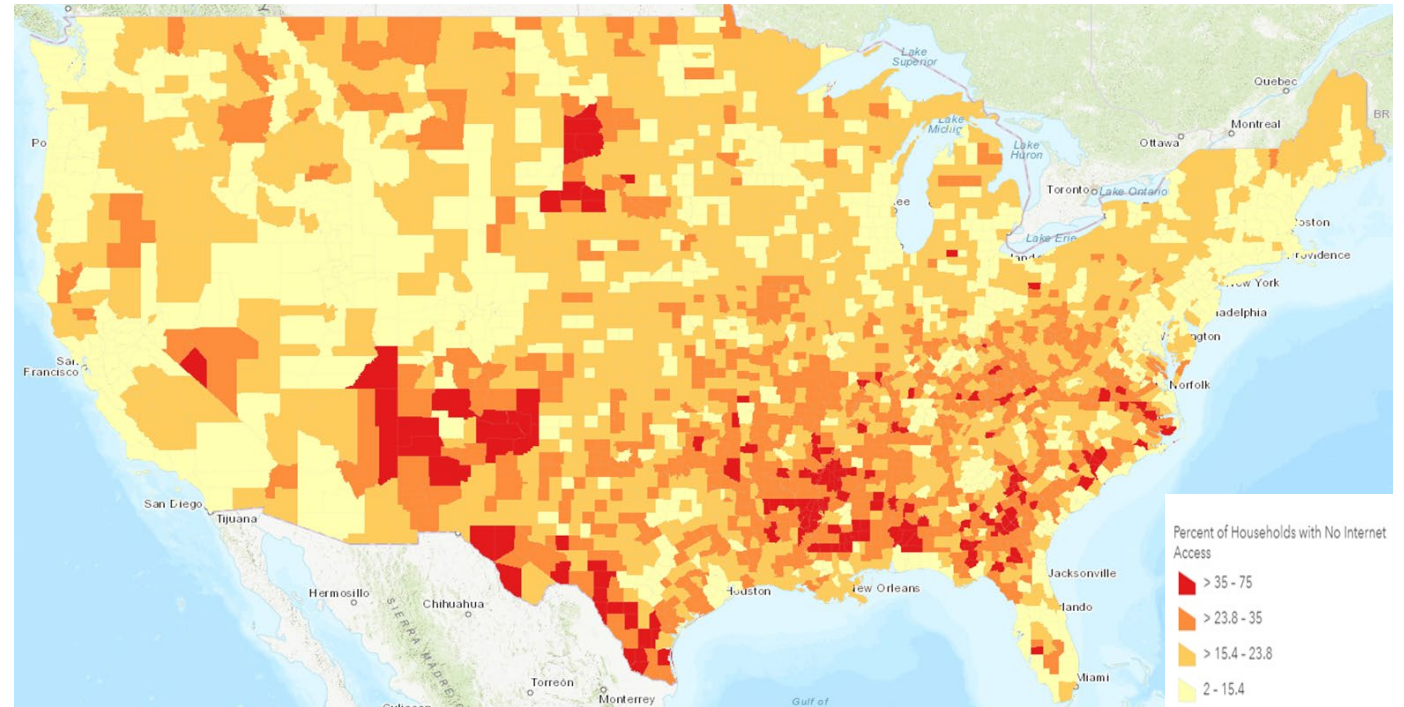

3/21/2023

High-Speed Internet Adoption is Uneven Across Communities

- **65 million Americans** do not use the Internet at all.
- **10 million Internet users** rely solely on a mobile data plan.
- **5 Million households** not online identified **cost as their main reason** for not using the Internet.
- Under-connected Americans are disproportionately likely to be low-income, non-white, rural, Tribal, older, and differently-abled.

Red areas indicate places where more than 35% of the households have no Internet at all based on ACS subscription data.

The Bipartisan Infrastructure Law is a once-in-a-generation investment in infrastructure and competitiveness

Bipartisan Infrastructure Law

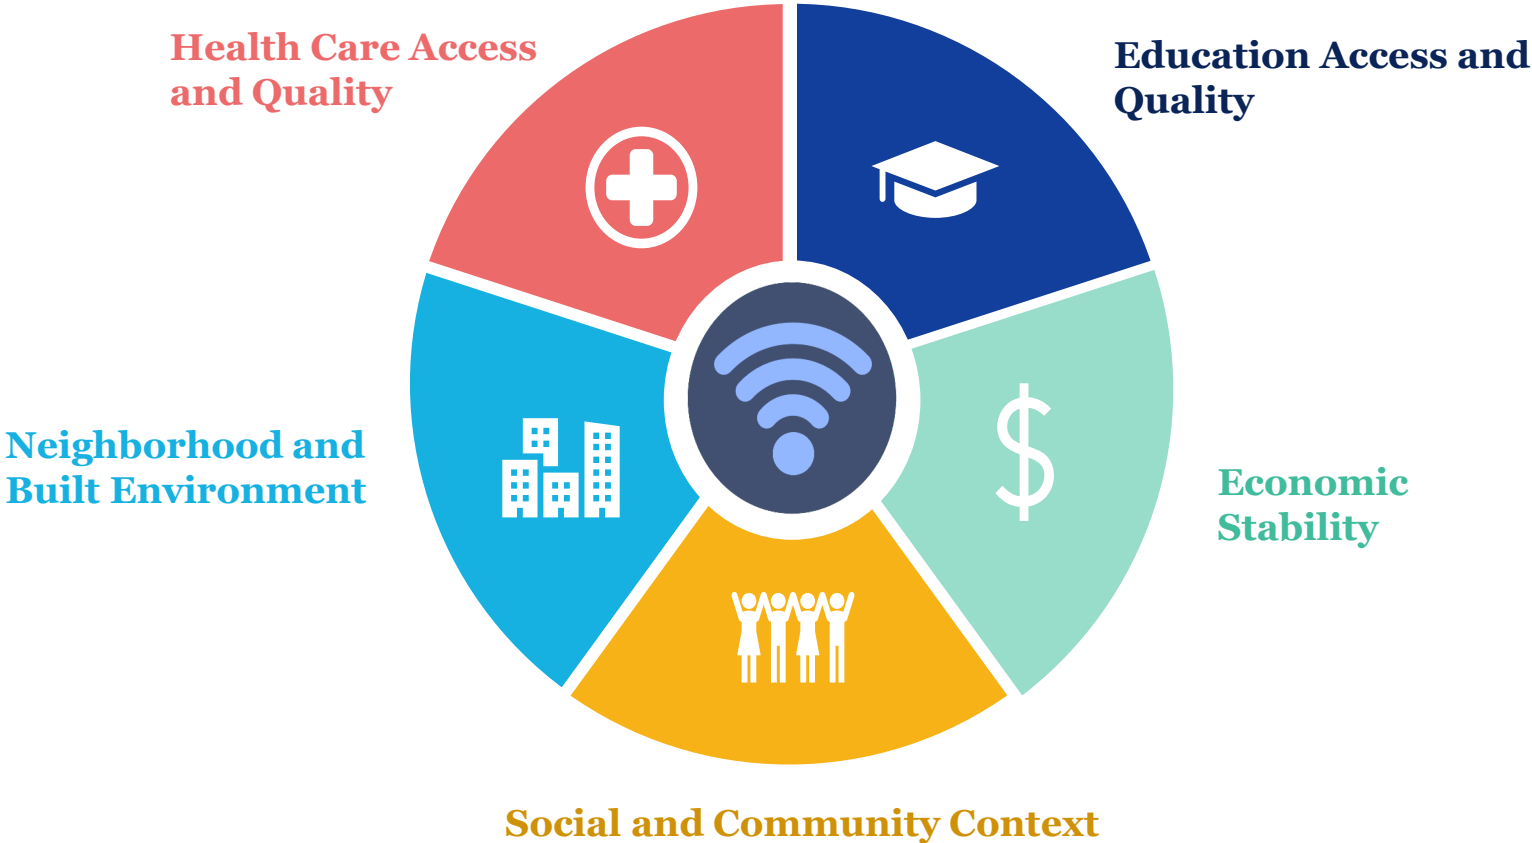

- \$1.2T bill passed by Congress and signed into law by President Biden on November 15, 2021
- Largest ever investments in high-speed Internet, rail and transit, clean energy, and water
- Allocated funding to over 350 distinct programs across more than a dozen federal departments and agencies

This historic legislation will:

- Deliver **clean water** to all families and eliminate the nation's lead service lines
- Ensure every American has access to affordable, reliable, **high-speed Internet**
- Repair and rebuild **roads and bridges**
- Improve **transportation options** and reduce greenhouse emissions
- Upgrade our nation's **airports and ports** to strengthen our supply chains
- Make the largest investment in **passenger rail** since Amtrak's creation
- Build a national network of **electric vehicle chargers**
- Upgrade **power infrastructure** to deliver clean, reliable energy
- **Make infrastructure resilient** against the impacts of climate change, cyber-attacks, and extreme weather events
- Deliver the largest investment in tackling **legacy pollution** in US history

Please see [Build.gov](https://www.build.gov) for more details on the Bipartisan Infrastructure Law

Digital equity and the social determinants of health

NTIA will administer ~\$48B through four programs that drive high-speed Internet access, affordability, and adoption

NTIA will administer ~\$48B of funding from the Bipartisan Infrastructure Law

BEAD	DIGITAL EQUITY	TRIBAL	MIDDLE MILE
<p>\$42.45B</p>	<p>\$2.75B</p>	<p>\$2.00B</p>	<p>\$1.00B</p>
<p>Broadband Equity, Access & Deployment Program</p> <p>A program to get all Americans online by funding partnerships between states or territories, communities, and stakeholders to build infrastructure where we need it to and increase adoption of high-speed Internet.</p>	<p>Digital Equity Act</p> <p>Three programs that provide funding to promote digital inclusion and advance equity for all. They aim to ensure that all communities can access and use affordable, reliable high-speed Internet to meet their needs and improve their lives.</p>	<p>Tribal Connectivity Technical Amendments</p> <p>A program to help tribal communities expand high-speed Internet access and adoption on tribal lands.</p>	<p>Enabling Middle Mile Broadband Infrastructure</p> <p>A program to expand middle mile infrastructure, to reduce the cost of connecting unserved and underserved areas.</p>

FCC to administer \$14.2B

For Affordable Connectivity Program, which replaced the EBB program

USDA to administer \$2.0B

Via the Rural Utilities Service

Private Activity Bonds \$0.6B

Authorizes State and local governments to use private activity bonds for rural broadband

BEAD program will provide ~\$42.45B for infrastructure planning and implementation

Funding pool
\$42.45B

A program to get all Americans online by funding partnerships between states or territories, communities, and stakeholders to build infrastructure where we need it to and increase adoption of high-speed Internet.

PROGRAM HIGHLIGHTS

Entities eligible to apply for this program include:

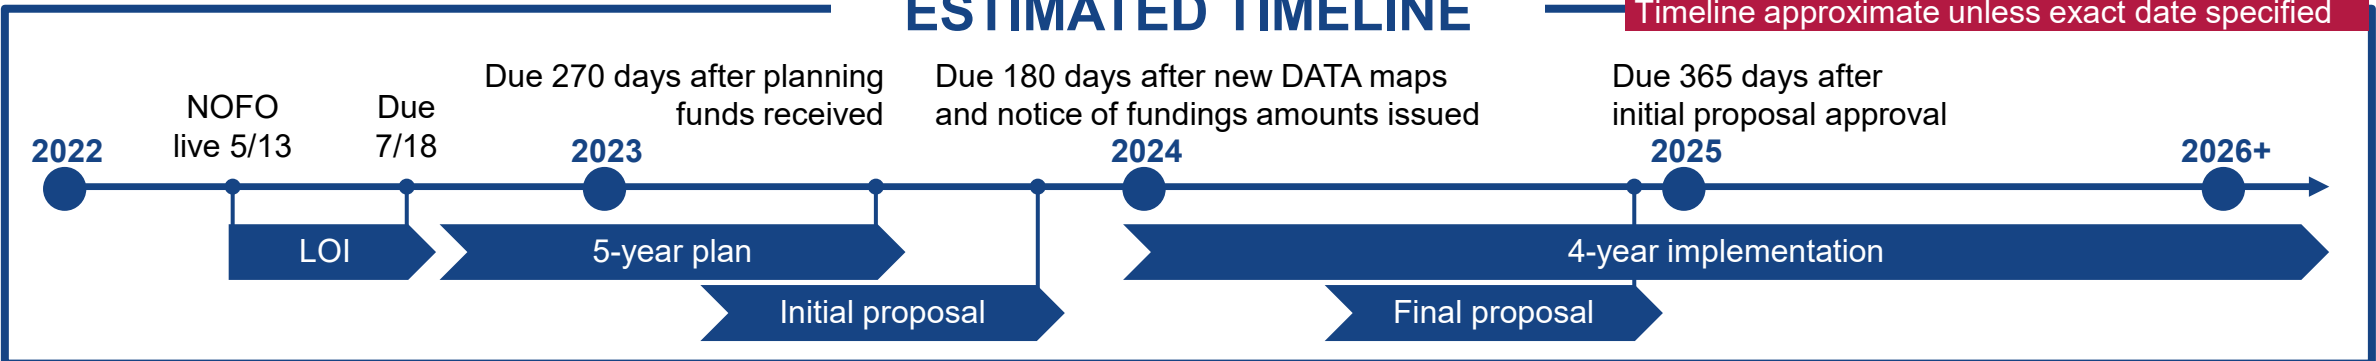

- All 50 States
- The District of Columbia and Puerto Rico
- Other Territories: U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands

Example eligible uses of funds include:

- ☆ Planning for deployment of Internet
- ☆ Deploying or upgrading Internet
- ☆ Installing Internet in multi-tenant buildings
- ☆ Implementing adoption and digital equity programs
- ☆ Workforce and job training

ESTIMATED TIMELINE

Timeline approximate unless exact date specified

Digital Equity Act created three programs to promote digital equity and inclusion

Funding pool
\$2.75B

Three programs that provide funding to promote digital inclusion and advance equity for all. They aim to ensure that all communities can access and use affordable, reliable high-speed Internet to meet their needs and improve their lives.

PROGRAMS HIGHLIGHTS

The Digital Equity Act created three programs:

State Planning

- \$60M formula funding program to develop digital equity plans

State Capacity

- \$1.44B formula funding program to implement plans & promote digital inclusion

Competitive

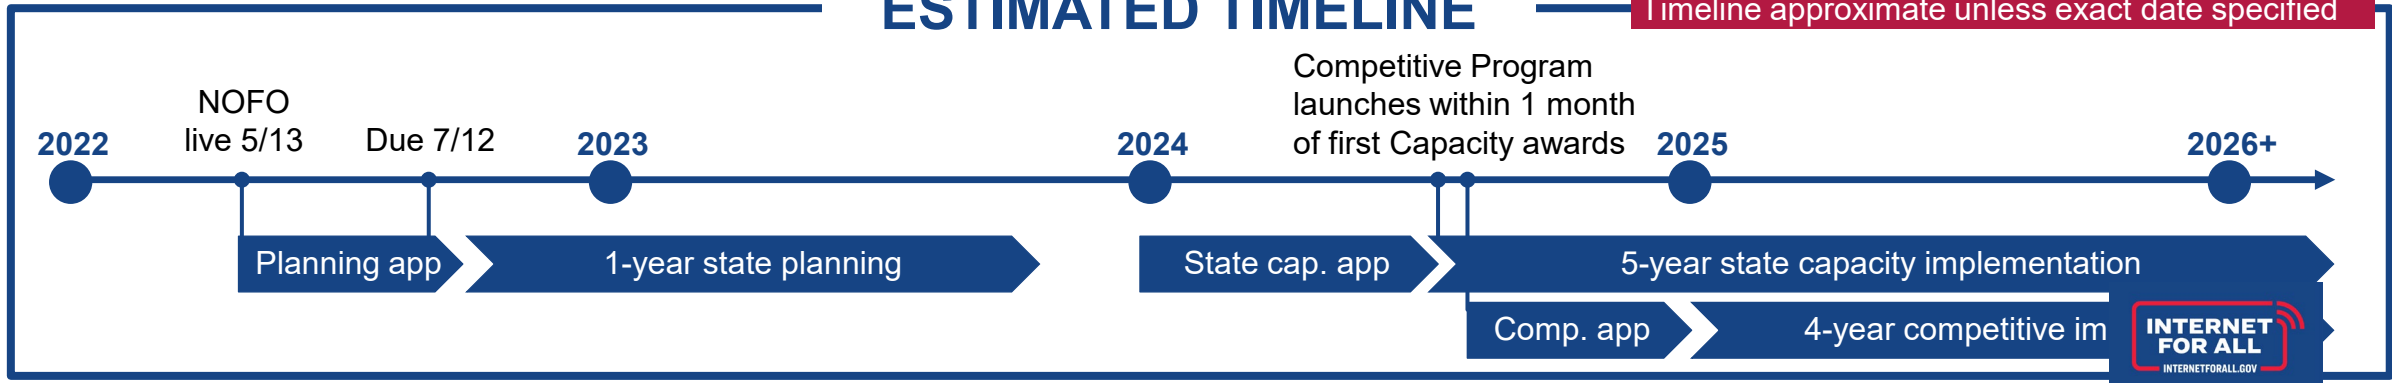

- \$1.25B to implement digital equity and inclusion activities

Example eligible uses of funds include:

- ☆ Developing digital equity plans; states must develop a plan to be eligible for state capacity grants
- ☆ Making awards to other entities to help make digital equity plans
- ☆ Improving accessibility and inclusivity of public resources
- ☆ Implementing digital equity plans and related activities
- ☆ Providing digital literacy and digital skills education
- ☆ Facilitating the adoption of high-speed Internet

ESTIMATED TIMELINE

Timeline approximate unless exact date specified

Digital inequity disproportionately impacts our stakeholders

DE & BEAD

Covered Populations and Underrepresented Communities

Identity groups and communities disproportionately impacted by digital inequity

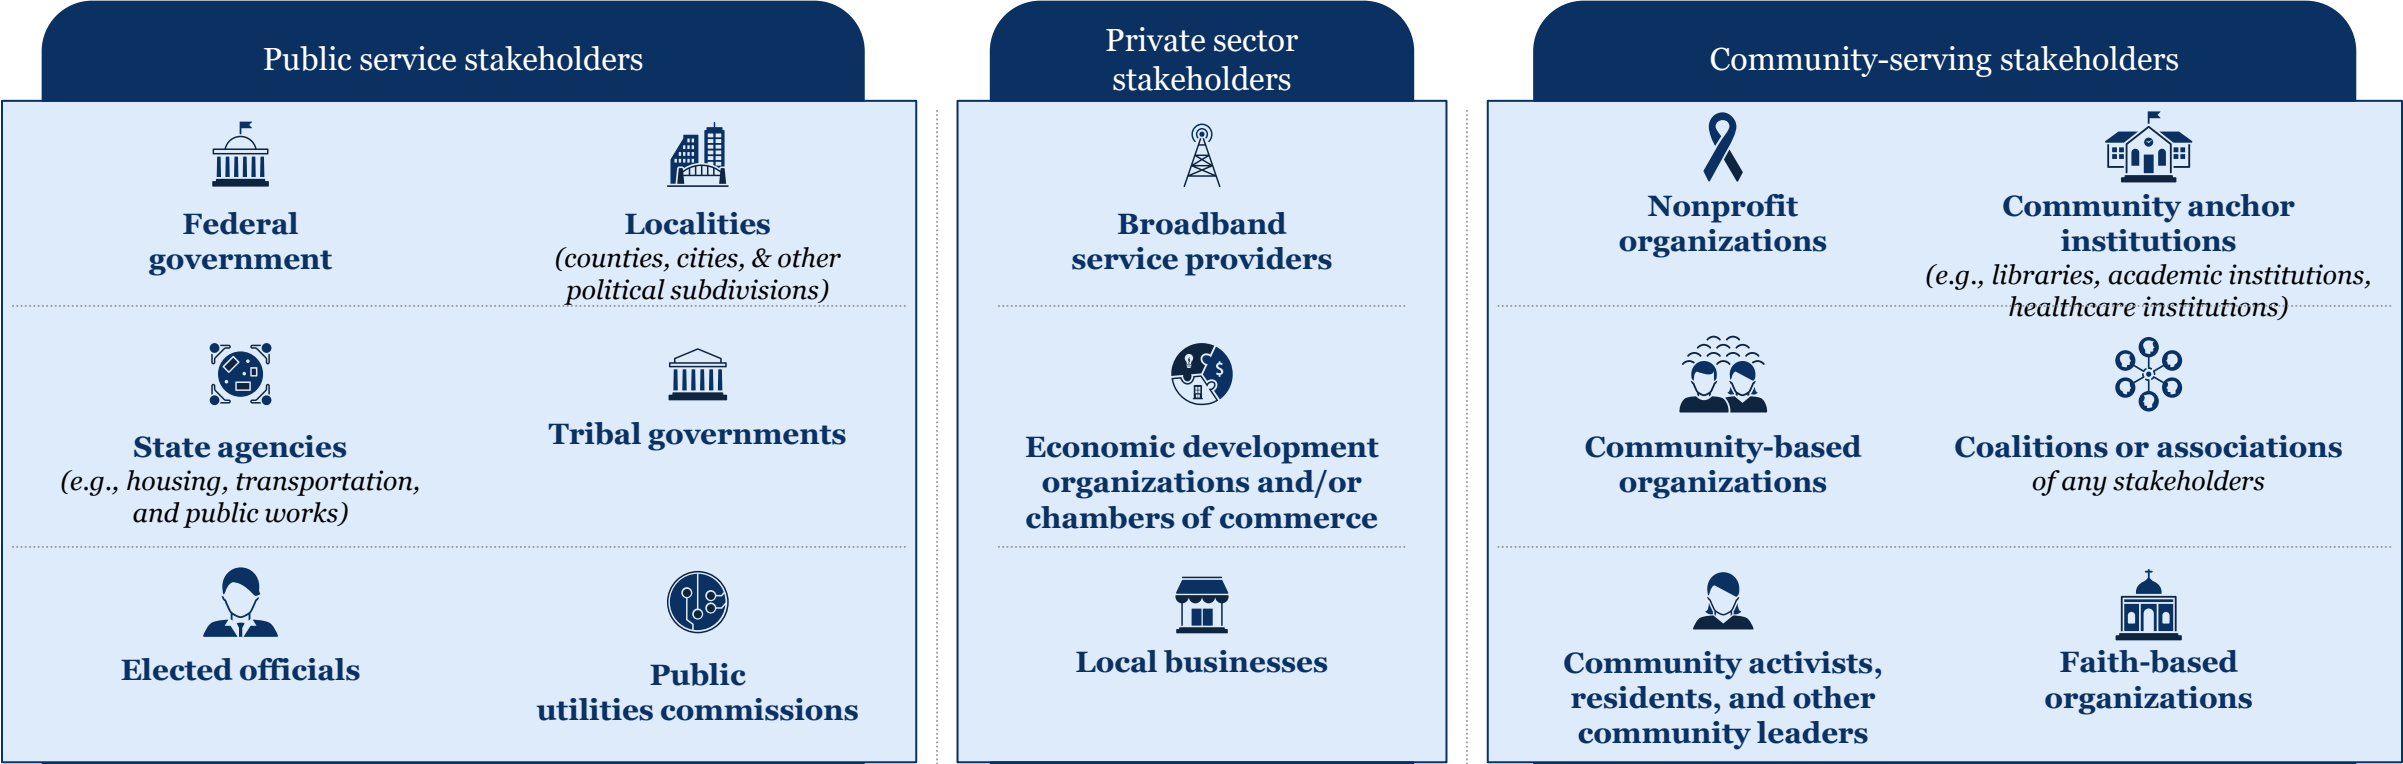

-  Low-income households
-  Indigenous and Native American persons
-  People with language barriers
-  Aging individuals
-  Members of ethnic and religious minorities
-  Racial and ethnic minorities
-  Incarcerated individuals
-  Women
-  Rural inhabitants
-  Veterans
-  LGBTQI+ persons
-  Persons adversely affected by persistent poverty or inequality
-  Persons of Color
-  Persons with disabilities

Potential to engage a large and diverse group of stakeholders

Potential stakeholders include any individuals, groups, and/or organizations **involved in, impacted by, or interested in** State and Local broadband efforts

Strong stakeholder engagement can support the development of an inclusive, ambitious, and responsive broadband plan grounded in a deep understanding of community needs

Technical amendments and new funding will strengthen current Tribal Broadband Connectivity Program

Funding pool
\$2.00B

A program to help tribal communities expand high-speed Internet access and adoption on tribal lands.

PROGRAM HIGHLIGHTS

New funding will be used for additional new grants and to fully fund grants from first round of awards

Amendments to original program:

- Relaxes time requirements of original program
- Allows infrastructure grantees to spend up to 2.5% of the total project cost for related planning, feasibility and sustainability studies
- Preserves unused allocated funds for other Tribal broadband projects instead of reverting to the Treasury

ESTIMATED TIMELINE

Timeline approximate unless exact date specified

Middle Mile Grant Program will invest in the construction, improvement or acquisition of middle mile infrastructure

Funding pool
\$1.00B

A program to expand middle mile infrastructure, to reduce the cost of connecting unserved and underserved areas.

PROGRAM HIGHLIGHTS

Middle mile infrastructure refers to the mid-section of Internet infrastructure that carries large amounts of data at high speeds over long distances and connects the "backbone" of Internet infrastructure to the "last mile", which connects to end users

Entities eligible to apply include a wide variety of entities, incl. but not limited to government entities, utilities, companies, and non-profits that provide Internet services

Example uses of funds:

- ☆ Construction, improvement or acquisition of facilities and equipment
- ☆ Engineering design, permitting and work related to projects
- ☆ Personnel costs, including salaries and benefits
- ☆ Other costs necessary to program's activities

ESTIMATED TIMELINE

Timeline approximate unless exact date specified
